CRITERIA	RATINGS			POINTS
Project inlcudes a well documented README markdown file. view longer description	**3 pts** **A well documented Readme file on Github** A project README that includes: - project or program name - author name - description of project - project setup instructions - link to live site on GitHub Pages - copyright and license information	**1 pts** **Default ReadMe** This is the default readme that is generated by Github on new projects. Usually contains the name of the project and a description if one is provided ▲	**0 pts** **No Readme file on Github**	1 / 3 pts
Project is in a polished, portfolio-quality state. view longer description	**2 pts** **Went above and beyond in the visual aspect** Suggestions for what this can mean: Intuitive, easy to follow layout. Simple yet polished styling. Form field labels where appropriate. Form fields that are validated correctly, and get cleared after submitting. Detailed, well put together readme. No typos. And much more.	**1 pts** **Average polished project** The project is styled averagely, has an average visual appeal, and one can work with the website without much of a strain. ▲	**0 pts** **Project NOT polished at all** The project shows NO effort of styling to make it visually appealing.	1 / 2 pts

NAME	DUE	STATUS SCORE	OUT OF

PORTFOLIO LANDING PAGE (2)

CRITERIA	RATINGS			POINTS
Commits are made regularly with clear messages associated with them view longer description	**3 pts** **Full Marks** 20 + commits in the project with well detailed commit messages ▲	**2 pts** **Half Marks** Between 10 and 20 Github commits with detailed commit messages	**0 pts** **Less than 20 Github commits present in the project**	3 / 3 pts
Page incorporates a custom-made stylesheet view longer description	**1 pts** **Used custom CSS stylesheet** The project uses CSS extentsively to style components in the webpage. ▲	**0 pts** **Project has no custom CSS stylesheet.** The project does not make use of a custom CSS stylesheet to style the actual components.		1 / 1 pts
Project objectives are met. view longer description	**1 pts** **Objective is met** The student has made the correct use of HTML elements and tags ▲	**0 pts** **No marks** Students has incorrect use of HMTL element and tags		1 / 1 pts
Project objectives are met. view longer description	**2 pts** **Objectives is met** Student has correctly used at least 4 styling rules	**0 pts** **No marks** Students has not used at least 4 styling rules		1 / 2 pts
				Total points: 8

QUICK MOVERS

CRITERIA	RATINGS			POINTS
Project meets the required Objectives	**3 pts** **Full marks** The project layout and UI components are Designed similarly to the reference provided in the resources	**1.5 pts** **Half Marks** The UI differs from the reference image provided but all the assets have been utilised and located in their right places with the image sizes retaining their respective sizes ▲	**0 pts** **No marks** Missing Assets and a mismatched flow in the positioning of the UI components and lacking inflow as well as resized image sizes.	1.5 / 3 pts
Color Implementation view longer description	**2 pts** **Full marks** The text colors and the full screen menus were strictly adhered to	**1 pts** **Half Marks** Either the text colors and the screen menus differ from the given instructions. ▲	**0 pts** **No marks** No color requirements have been implemented in the UI	1 / 2 pts

NAME		DUE	STATUS SCORE	OUT OF
QUICK MOVERS				

CRITERIA	RATINGS			POINTS
The project contains a properly documented README markdown file.	**1 pts** **The project contains a properly documented README file.** The project contains a README markdown file in the Github repository that is well structured and detailed. The readme file contains the project name, project description, author, technologies used, dependencies, setup & installation instructions, contact & license information.	**0 pts** **No marks** The project does NOT contain a README file. ▲		0 / 1 pts
	Comments Make sure you include setup & installation. If there is none you need to say how to access the website and the requirements Do Refer to the pinned README on slack or check **https://www.makeareadme.com/#template-1 (https://www.makeareadme.com/#template-1)**			
Use of Version Control.	**3 pts** **20+ commits** The project has more than 20 commits. Commits are feature-based and with clear commit messages associated with them. For example, a commit message should read "navigation section complete, links clickable and redirecting to right pages".	**2 pts** **10+ Commit and above with clear commit messages** ▲	**0 pts** **Less than 10 commits** The project contains less than 10 commits with clear commit messages associated with them.	2 / 3 pts

NAME			DUE	STATUS SCORE	OUT OF

QUICK MOVERS

CRITERIA	RATINGS			POINTS
Deployment	**1 pts** **Full marks** Project is deployed to Github Pages & project description and live link are provided ▲	**0.5 pts** **Half Marks** The presence of either a working link without the project description constitutes half a mark	**0 pts** **No marks** Project is not deployed to Github Pages. The project is NOT deployed to github pages and neither the project description nor URL to live site are provided on the Github repository.	1 / 1 pts
Project Structure view longer description	**1 pts** **Full marks** The project uses CSS extentsively to style components in the webpage.	**0 pts** **No marks** Project has no custom CSS stylesheet.		0.8 / 1 pts
Syntax & Indenation is used in the Project.	**2 pts** **Consistent spacing and Indentation.** The project code has consistent indentation and spacing which makes the code easily readable.	**0 pts** **No proper indentation and syntax.** The project's code has no fluent indentation. This means the code is scattered and is not easy to follow up or read.		1 / 2 pts
	Comments use a vsode extension called prettier or beautify			

NAME	DUE	STATUS SCORE	OUT OF

QUICK MOVERS

CRITERIA	RATINGS		POINTS
Project meets the required Objectives	**2 pts** **The project is responsive** The website can be rendered in an efficient, optimized, and easy-to-read format across a variety of devices and web browsers on different platforms.	**0 pts** **No marks** The website is not responsive ▲	0 / 2 pts
This criterion is linked to a learning outcome	**1 pts** **Page Linkage** The pages are correctly linked to the navigation tabs ▲	**0 pts** **No marks** Not fully linked to nav tabs	1 / 1 pts
			Total points: 8.3

QUIZ BOARD (1)

CRITERIA	RATINGS					POINTS
The Project achieves the required objectives. [view longer description](#)	**4 pts** **The project achieves all the objectives given.**	**3 pts** **The project achieves more than half of the objectives given.**	**2 pts** **The project achieves half of the objectives given.** ▲	**1 pts** **The project achieves less than half of the objectives given.**	**0 pts** **The project does NOT achieve ANY of the objectives given.**	2 / 4 pts
	Comments the total score is not showing					
User stories are met. [view longer description](#)	**4 pts** **The project functionally achieves all the user stories given.**	**3 pts** **The project functionally achieves more than half of the user stories given.**	**2 pts** **The project achieves half of the user stories given.** ▲	**1 pts** **The project achieves less than half of the user stories given.**	**0 pts** **The project does NOT achieve ANY of the user stories given.**	2 / 4 pts

NAME		DUE	STATUS SCORE	OUT OF
QUIZ BOARD (1)				

CRITERIA	RATINGS			POINTS
Code indentation and syntax [view longer description](#)	**3 pts** **The project uses proper indentation & syntax.** The project code is consistently indented & the javascript code uses camelcase naming of variables. The variable names used also make sense. ▲	**2 pts** **The project implements fair code indentation & syntax.** The project code is fairly indented which means it not constanltly indented all-through but looks fairly neat and is fairly easy to read. The project JS code also uses camelcase & proper variable naming.	**1 pts** **Improper indentation of code** The project code lacks consist indentation & does not implement camelcase and appropriate naming of variables.	3 / 3 pts

NAME				DUE	STATUS	SCORE	OUT OF

QUIZ BOARD (1)

CRITERIA	RATINGS				POINTS
The project contains a properly documented README markdown file. [view longer description](#)	**3 pts** **The project contains a properly documented README file.** The project contains a README markdown file in the Github repository that is well structured and detailed. The readme file contains the project name, project description, author, technologies used, dependencies, setup & installation instructions, contact & license information.	**2 pts** **The project contains an averagely detailed README file** The project has a README file in the Github repository that is fairly detailed and contains most but not all features of a README file & the project.	**1 pts** **The project contains a default README file** The project contains the default README file that is generated by Github and has minimal details about the project. ▲	**0 pts** **The project does NOT contain a README file.** The Github repository does NOT contain any README markdown file.	1 / 3 pts

NAME		DUE	STATUS	SCORE	OUT OF

QUIZ BOARD (1)

CRITERIA	RATINGS			POINTS
The project is polished in a Portfolio quality state. [view longer description](#)	**2 pts** **The project is very well polished in a portfolio quality state.** The project is well designed, very visually appealing, easy to work through the website, shows a touch of creativity. The project uses Bootstrap classes and custom CSS to style elements. This also means it goes above the visual aspect with features like clearing form fields after an event and so much more.	**1 pts** **The project is averagely polished.** The project is styled averagely, has an average visual appeal, and one can work with the website without much of a strain. ▲	**0 pts** **The project is NOT polished.** The project looks clumsy & shows NO effort of styling to make it visually appealing.	1 / 2 pts
